

2004 / 05:

- **A year in view**

Market Transformation Programme

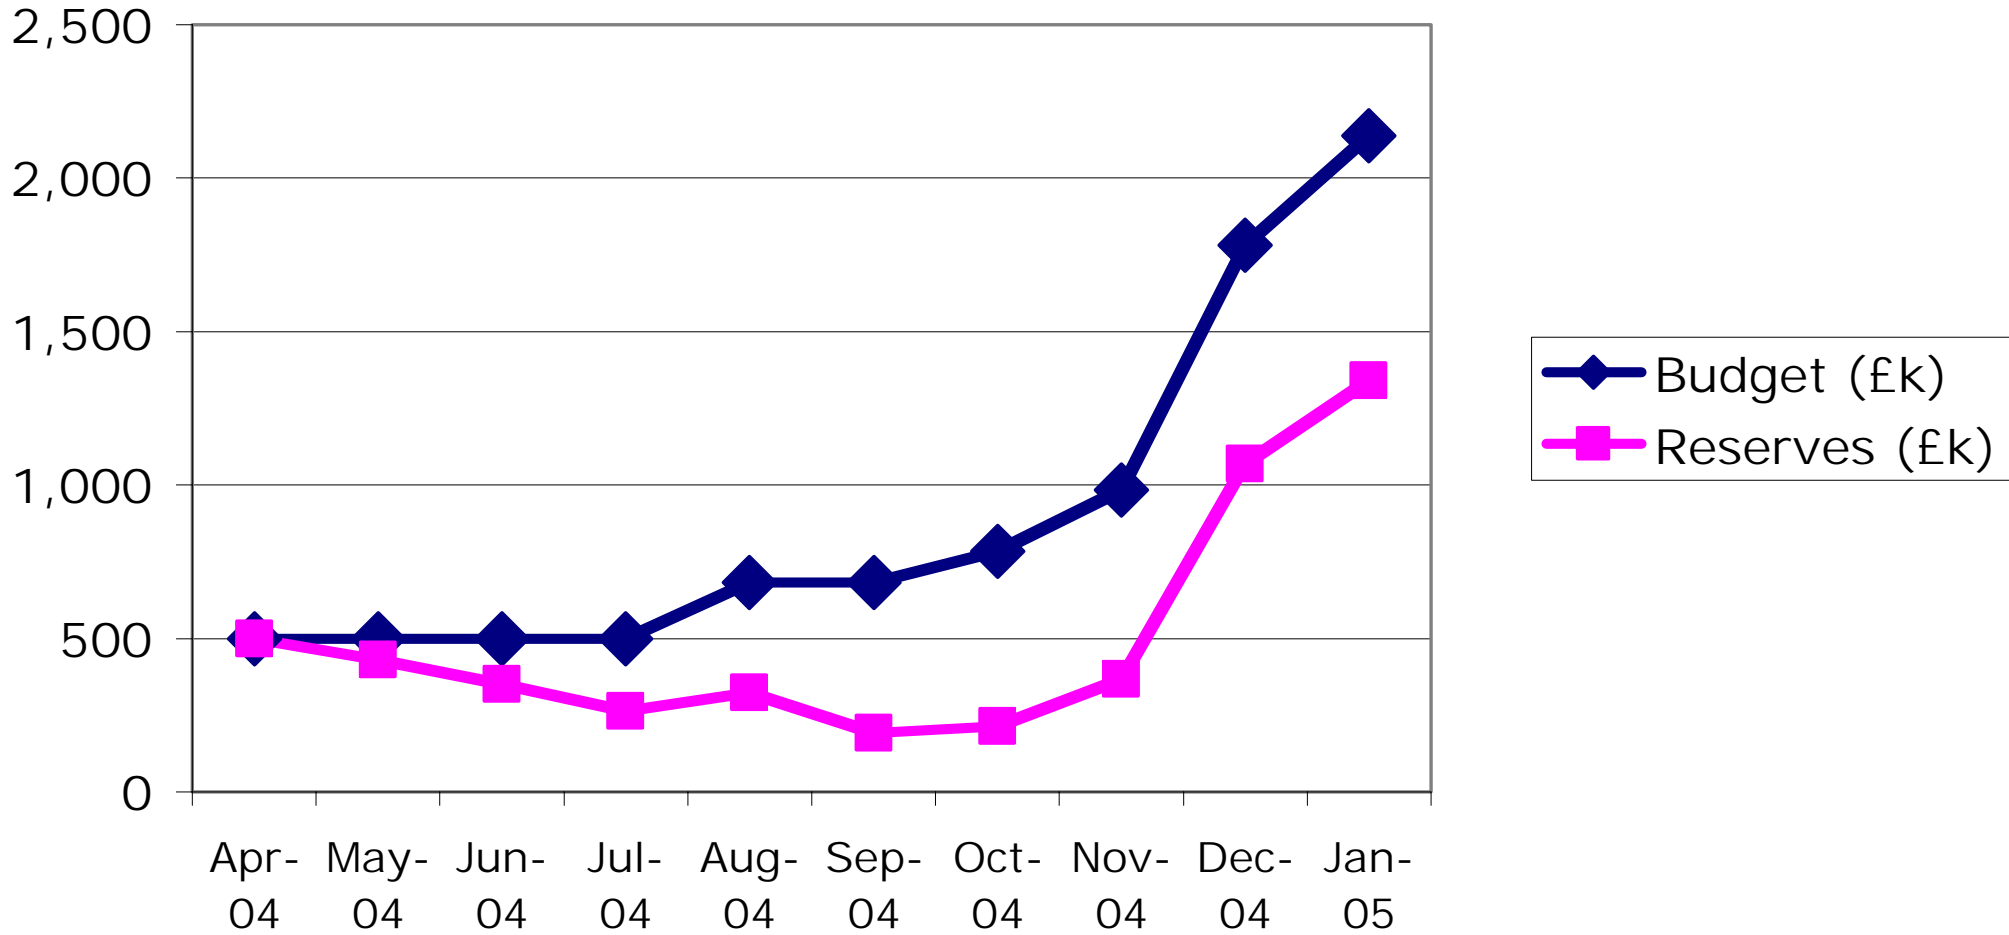

..... to bring forward products, systems and services which do less harm to the environment, using less energy, water and other resources

Market Transformation Programme

..... to bring forward products, systems and services which do less harm to the environment, using less energy, water and other resources

MTP Budget and reserves for 2004/05

Market Transformation Programme

..... to bring forward products, systems and services which do less harm to the environment, using less energy, water and other resources

A few highlights by workstream

C1 - Programme Development

C2 - Evidence Base

C3 - Reliable Information

C4 - Effective Standards

C5 - Assured Innovation

C0 - Programme Management

Market Transformation Programme

..... to bring forward products, systems and services which do less harm to the environment, using less energy, water and other resources

C1 - Programme Development & Outreach

- China – Rightlights, MOU
- BREW work plan
- Waste – WRAP, Waste R&D, WEEE, Haz
- Water - WSR Regional policy
- Enviros - Products in OGD's
- TVs with JRC
- Australia
- Academic links (Sheffield, ECI, CSE...)

Market Transformation Programme

..... to bring forward products, systems and services which do less harm to the environment, using less energy, water and other resources

C2 - Evidence Base

- Policy costings
- Data loggers
- Market Research
- Web-based WhatIf tool
- Waste scoping work
- 2050 scenarios

Market Transformation Programme

..... to bring forward products, systems and services which do less harm to the environment, using less energy, water and other resources

C3 - Reliable Information

- Ecolabelling
- Water labels
- Compliance
- BSI test methods project

Market Transformation Programme

..... to bring forward products, systems and services which do less harm to the environment, using less energy, water and other resources

C4 - Effective Standards

- EEIR
- Energy Star – imaging, PC criteria
- Quick Wins & procurement
- WEEE & TVs
- Digital switchover
- Performance Standards Information Base web site

Market Transformation Programme

..... to bring forward products, systems and services which do less harm to the environment, using less energy, water and other resources

C5 - Assured Innovation

- DTI TV innovation study
- DTI Environmental Industries Unit technology assessments
- Technology innovation roadmaps

Market Transformation Programme

..... to bring forward products, systems and services which do less harm to the environment, using less energy, water and other resources

C0 - Programme Management

- Programme evaluation
- Restructure
- Plans for 05/06
- Team, skills, resources

Market Transformation Programme

..... to bring forward products, systems and services which do less harm to the environment, using less energy, water and other resources
